

Debian Long Term Support Contract by Freexian

Traditionally, Debian manages security support of a given stable release until the next stable release plus one year. Roughly, this amounts to **3 years which is not enough for many organizations** and does not allow to deploy version N+2 once N is no longer supported. **We want to fix this by extending the security support of Debian releases to at least 5 years.**

To achieve this goal, we **need your help to finance the work** of multiple Debian contributors who are established as independent workers. Did you ever wonder how you can give back to Debian? This is the perfect **opportunity to contribute to the perennial success of Debian**, an important building block of your IT infrastructure.

If you are not convinced yet, here are 7 reasons why you should subscribe to this offer:

1. Ensure prioritized support of the packages that you are using
2. Let the LTS team know which packages you are using and ensure that they don't stop security support before the start of [Extended LTS](#)
3. Submit your own test cases and let us ensure that our security updates won't break your production infrastructure
4. Direct contact with the LTS staff for your queries
5. Influence the work of sponsored developers so that Debian continues to fit your needs
6. Generate goodwill among the free software community thanks to your appearance in the list of sponsors.
7. Benefit from the experience of other Debian-using companies thanks to a private mailing list.

Detailed Terms of Debian Long Term Support Contract by Freexian

The terms below are the authoritative terms (page 1 is a simplified non-authoritative summary). They apply to the following entities:

- the Customer as identified by the information in page 2 (“Company information” and “Representative”)
- the Service Provider, FREEXIAN SARL, a company incorporated under the Law of France:

Representative:	Raphaël HERTZOG
Title:	Director

ARTICLE 1 – DEFINITION OF THE SERVICE PROVIDED

The money collected from the Customer by FREEXIAN SARL is converted into work hours. Those work hours are then distributed to “Paid Debian Contributors” (PDC) who will provide security updates for Debian releases which are no longer maintained by Debian’s official security team. Those security updates will be made available to the Customer through the repositories of the Debian LTS team (<https://wiki.debian.org/LTS>).

FREEXIAN SARL ensures of the reality of the work done by PDC by reviewing the public monthly report that they have to provide.

FREEXIAN SARL ensures that PDC prioritize packages used by the Customer. The work assignment mechanism provides a list of packages sorted by the amount of associated sponsorship (summed across all Debian LTS sponsors). The most popular packages among Debian LTS sponsors will thus be handled first.

FREEXIAN SARL does not guarantee that all security issues will be fixed. Each issue will be reviewed and triaged by the PDC, some may be classified as not worthy of being fixed. Some might not be fixable at all, in which cases the security announce will try to provide mitigation techniques.

FREEXIAN SARL does not guarantee any timeline for the publication of a security fix. There are too many factors that can delay the release of a security fix (availability of an upstream patch, requirement to backport said patch, lack of sponsored time for a low-priority package, availability of a PDC with the required skills, etc.).

The Customer recognizes that this contract is a best-effort contract. FREEXIAN SARL and the PDC will do their best to collectively serve the Debian LTS sponsors by providing timely security updates for the packages that they are using.

The Customer acknowledges that the list of packages covered by security support evolves over time. The “debian-security-support” package contains the list of packages excluded from security support and can be updated following the usual Debian procedures.

ARTICLE 2 – CUSTOMER RIGHTS

- For bronze-level sponsors or above, the Customer can be listed on FREEXIAN SARL’s website as a Debian LTS sponsors. For silver sponsors and above, a logo is required (size of 300x150 at least). - For platinum-level sponsors, the Customer can provide functional tests (implemented with the autopkgtest package testing framework) that FREEXIAN SARL and the PDC should run to ensure that security updates will not generate regressions in the Customer’s production infrastructure.
- The Customer can update its list of packages at any time by sending an updated list to sales@freexian.com.
- The Customer can contact FREEXIAN SARL and the PDC to enquire about any security issue that they care about by sending a mail to deblts-team@freexian.com. FREEXIAN SARL and the PDC will do their best to respond to the Customer’s queries and accommodate the Customer’s requests.
- The Customer can contact other Debian LTS sponsors by sending an email to a private mailing list where all technical contacts (see form page 2) from all LTS sponsors are subscribed (along with FREEXIAN SARL and the PDC).
